

**Vinyl Kraft**  
Windows and Doors

## Custom Shape Template Waiver

Date \_\_\_\_\_

Job Name \_\_\_\_\_

To Whom It May Concern:

Vinyl Kraft requires a template for any replacement shape that is not symmetrical, or a true shape, (i.e., half round that is  $\frac{1}{2}$  ht of overall width). New construction shapes may be made without templates because openings are adjustable in the field.

This waiver is to acknowledge that Vinyl Kraft's customer accepts liability for a replacement shape to be produced without required template. Any discrepancy in fitting the opening related to the lack of having template is solely the responsibility of the customer.
