2500 SERIES REPLACEMENT WINDOW

VINYL FRAME COLORS

CUSTOM EXTERIOR COLORS

Q-Lon Bulb Seal helps reduce outside air infiltration between the bottom sash and sill

Foam Filled Frame and Sash (Optional)

Fixed Lights

Slider

Our 2500 Series 2 or 3 light sliders offer a great view to the outside and maximum ventilation when opened. Our smooth operating "lift and take out" sashes provide convenience and durability. These windows are a perfect addition to any room and will coordinate with any design theme.

Add fixed lights in those areas where maximum light and flexible style in design is needed. The energy efficiency of these windows make it affordable to let the light shine in while helping to lower your heating costs.

When combined with our standard SuperSpacer System[®] and our energyKraft[®] LoE glass options; you can achieve one of the most energy efficient windows available on the market.
